

# USING THE AFFECT BRIDGE FOR TOTAL PROSPERITY

WITH DEBI LIVINGSTON-BOUSHEY, CI

*Do you believe you are being hurt by today's economy?  
Do you find yourself worrying about paying bills or advertising your business?  
Do you avoid doing regression work with your clients?  
If you answered YES to any of these questions - this course is for you!*

The Affect Bridge regression technique is a powerful, effective emotional releasing technique. People are ruled by their emotions both positively and negatively. Feelings are what keep people attached to a habit and/or pattern. Feelings are also what block people from moving forward with their life goals and dreams.

In this full day course, focusing on the affect bridge regression, you will explore the root cause of your beliefs that are acting as those frozen blocks preventing you from manifesting the prosperity you so rightly deserve. The four keys to total prosperity will be reviewed: financial, mental, spiritual and physical; and unwanted beliefs, thoughts and feelings from each unique aspect will be released.

You will focus on new goals, learning special tools and techniques to activate the Law of Attraction more powerfully and successfully. By working on your personal issues and establishing new goals, you, the hypnotist, will be better equipped to help your clients!

Many hypnotists carry uncomfortable feelings about facilitating regression work with clients. Release these fears once and for all! The entire day is devoted to you working on yourself, so you can better understand the needs of your clients!
